

# Site-Level Content Patterns

## Purpose

This document defines the **site-level patterns** that wrap around content blocks: header, primary navigation, footer, announcement banners, and the global page structure. These patterns are referenced in `site_config.json` and rendered by the build system.

## Pattern Overview

ANNOUNCEMENT BANNER (optional)	← Pattern 1
APP HEADER <ul style="list-style-type: none"><li>└ Logo (left)</li><li>└ Site Name</li><li>└ Language Selector (right)</li></ul>	← Pattern 2
PRIMARY NAVIGATION BAR <ul style="list-style-type: none"><li>└ Horizontal menu items</li></ul>	← Pattern 3
BREADCRUMB (optional, spoke pages)	← From <code>_navigation-layouts.json</code>
PAGE HEADER (title/subtitle/divider)	← From <code>_header-layouts.json</code>
SECONDARY NAV (optional tabs/sidebar)	← From <code>_navigation-layouts.json</code>
CONTENT BLOCKS (from <code>webgen-content-format.pdf</code> )	← From content patterns doc
FOOTER <ul style="list-style-type: none"><li>└ Logo (centered, 40% scale)</li><li>└ Primary Links (horizontal row)</li><li>└ Social Media Icons</li><li>└ Copyright &amp; Contact Info</li></ul>	← Pattern 4

# Pattern 1: Announcement Banner

## Visual Layout

Configuration in site\_config.json

```
json
{
  "siteId": "inpowersuite",
  "announcementBanner": {
    "enabled": true,
    "type": "info",
    "message": "New features released!...",
    "dismissible": true,
    "link": {
      "text": "Learn More",
      "targetId": "features"
    }
  }
}
```

```
toml
siteId = "inpowersuite"

[announcementBanner]
enabled = true
type = "info"
message = "New features released! ..."
dismissible = true

[announcementBanner.link]
text = "Learn More"
targetId = "features"
```

## Field Reference

Field	Type	Required	Values	Description
enabled	Boolean	✔	true, false	Show/hide banner
type	String	✔	"info", "warning", "urgent"	Visual priority level
message	String	✔	Text	Banner message content
dismissible	Boolean	✔	true, false	Allow user to close banner
link	Object	○	Object	Optional CTA link
link.text	String	✔	Text	Link button text
link.targetId	String	✔	Page ID	Internal page reference
link.url	String	○	URL	External URL (use targetId OR url)

## Visual Styles by Type

Type	Background	Text Color	Icon	Use Case
info	Light blue (#e3f2fd)	Dark blue (#0d47a1)	📄	General announcements, feature releases
warning	Light yellow (#fff9c4)	Dark orange (#ff6f00)	⚠	Scheduled maintenance, deprecation notice
urgent	Light red (#ffebee)	Dark red (#c62828)	⚠	Critical issues, security alerts

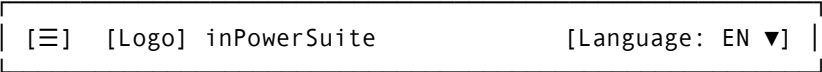

## CSS Classes

### CSS Classes

- .announcement-banner - Container
- .announcement-banner.info - Info styling
- .announcement-banner.warning - Warning styling
- .announcement-banner.urgent - Urgent styling
- .announcement-dismiss - Close button

# Pattern 2: App Header (Logo + Branding)

## Visual Layout

Configuration in site\_config.json

```
json
{
  "siteId": "inpowersuite",
  "branding": {
    "siteUrl": "www.inpowersuite.com",
    "siteName": "inPowerSuite",
    "tagLine": "inpower your business",
    "logo": {
      "white": "https://.../inpower_logoWhiteWP.png",
      "regular": "https://.../npower_logo558x144.png",
      "alt": "inPowerSuite Logo",
      "linkToHome": true
    }
  },
  "theme": {
    "primaryColor": "#d90429",
    "secondaryColor": "#a10000",
    "fontFamily": "Avenir Next, ..."
  },
  "languages": {
    "default": "en",
    "supported": ["en", "es", "fr"]
  }
}
```

```
toml
siteId = "inpowersuite"

[branding]
siteUrl = "www.inpowersuite.com"
siteName = "inPowerSuite"
tagLine = "inpower your business"

[branding.logo]
white = "https://.../inpower_logoWhiteWP.png"
regular = "https://.../inpower_logo558x144.png"
alt = "inPowerSuite Logo"
linkToHome = true

[theme]
primaryColor = "#d90429"
secondaryColor = "#a10000"
fontFamily = "Avenir Next,..."

[languages]
default = "en"
supported = ["en", "es", "fr"]
```

## Field Reference

Field	Type	Required	Description
branding.siteName	String	✓	Site name displayed in header
branding.tagLine	String	⦿	Optional tagline (hidden on mobile)
branding.logo.white	String	✓	URL to white logo (used in header)
branding.logo.regular	String	✓	URL to regular logo (used in footer)
branding.logo.alt	String	✓	Alt text for accessibility
branding.logo.linkToHome	Boolean	✓	Make logo clickable to home page
languages.default	String	✓	Default language code
languages.supported	Array	✓	List of supported language codes

## Behavior

### Desktop:

- Hamburger icon (left): Navigates to home page
- Logo + Site Name: Clickable link to home page
- Language Selector (right): Dropdown menu

### Scroll Behavior:

- Header is sticky (remains at top)
- Fades out during active scrolling
- Fades back in when scrolling stops

## Mobile:

Hamburger icon: Opens slide-out navigation drawer  
Logo scales responsively  
Language selector remains visible

## CSS Classes

.sticky-header-section - Sticky container  
.app-header - Header bar  
.hamburger-icon - Hamburger/home button  
.header-content - Logo and site name  
.header-controls - Right-side controls  
.language-selector - Language dropdown

# Pattern 3: Primary Navigation Bar

## Visual Layout

Configuration in site\_config.json

```
json
{
  "version": "2.0",
  "lastUpdated": "2025-11-25",
  "primaryNavigation": {
    "position": "header",
    "style": "horizontal-bar",
    "items": [
      {
        "id": "home",
        "label": "HOME",
        "type": "spoke",
        "hub": "hub00",
        "srcFile": "hub00/home.json",
        "order": 1
      },
      {
        "id": "markets",
        "label": "MARKETS",
        "type": "hub",
        "hub": "hub01",
        "srcFile": "hub01/markets.json",
        "order": 2
      },
      {
        "id": "features",
        "label": "FEATURES",
        "type": "hub",
        "hub": "hub02",
        "srcFile": "hub02/features.json",
        "order": 3
      },
      {
        "id": "clients",
        "label": "CLIENTS",
        "type": "spoke",
        "hub": "hub00",
        "srcFile": "hub00/clients.json",
        "order": 4
      },
      {
        "id": "services",
        "label": "SERVICES",
        "type": "spoke",
        "hub": "hub00",
```

```
toml
version = "2.0"
lastUpdated = "2025-11-25"

[primaryNavigation]
position = "header"
style = "horizontal-bar"

[[primaryNavigation.items]]
id = "home"
label = "HOME"
type = "spoke"
hub = "hub00"
srcFile = "hub00/home.json"
order = 1

[[primaryNavigation.items]]
id = "markets"
label = "MARKETS"
type = "hub"
hub = "hub01"
srcFile = "hub01/markets.json"
order = 2

[[primaryNavigation.items]]
id = "features"
label = "FEATURES"
type = "hub"
hub = "hub02"
srcFile = "hub02/features.json"
order = 3

[[primaryNavigation.items]]
id = "clients"
label = "CLIENTS"
type = "spoke"
hub = "hub00"
srcFile = "hub00/clients.json"
order = 4

[[primaryNavigation.items]]
id = "services"
label = "SERVICES"
type = "spoke"
hub = "hub00"
```

```
    "srcFile": "hub00/services.json",
    "order": 5
  },
  {
    "id": "demo",
    "label": "DEMO",
    "type": "spoke",
    "hub": "hub00",
    "srcFile": "hub00/demo.json",
    "order": 6
  }
]
```

```
srcFile = "hub00/services.json"
order = 5

[[primaryNavigation.items]]
id = "demo"
label = "DEMO"
type = "spoke"
hub = "hub00"
srcFile = "hub00/demo.json"
order = 6
```

Field Reference

Field	Type	Required	Description
id	String	✓	Unique menu item identifier
label	String	✓	Display text (uppercase)
type	String	✓	"hub" or "spoke"
hub	String	✓	Hub directory (e.g., "hub00")
srcFile	String	✓	Path to content file
order	Integer	✓	Display order (left to right)

Behavior

Active State:

Current page highlighted with white background and black text  
Hover state: Semi-transparent white background

Mobile:

CSS Classes:

At breakpoint 768px, collapses into hamburger drawer  
Drawer slides in from left side  
Full-screen overlay with close button

.main-menu-bar - Navigation container  
.main-menu-item - Individual menu link  
.main-menu-item.active - Active page highlight

# Pattern 4: Footer

## Visual Layout

[Logo - 40% scale]

PARTNERSHIPS   TESTIMONIALS   PRICING   CONTACT  
PRIVACY POLICY

[LinkedIn] [Facebook] [Twitter] [YouTube]

Field Reference

Field	Type	Required	Description
footer.showLogo	Boolean		Display logo in footer
footer.logoScale	Float		Logo scale (0.4 = 40%)
footer.copyrightYear	Integer		Copyright year
footer.copyrightHolder	String		Company name
footer.showAddress	Boolean		Display full address
footer.showPhone	Boolean		Display phone number
footer.links	Array		Footer navigation links
footer.links[].label	String		Link text (uppercase)
footer.links[].targetId	String		Internal page reference
footer.links[].order	Integer		Display order
footer.links[].secondary	Boolean		Secondary link styling (lighter, smaller)
footer.socialMedia.enabled	Boolean		Show social media icons
footer.socialMedia.links	Array		Social media links
socialMedia.links[].platform	String		Platform identifier
socialMedia.links[].url	String		External URL
socialMedia.links[].icon	String		Icon filename
socialMedia.links[].label	String		Accessibility label

Behavior

Layout:

- Red top border accent (1px, --brand-primary)
- Black background (#000000)
- Centered alignment for all elements
- Vertical stacking with consistent spacing

Responsive:

- Links wrap to multiple rows on narrow screens
- Social icons remain centered
- Address and phone stack vertically on mobile

Links:

- Primary links: Same hover style as header navigation
- Secondary links: Lighter gray text, smaller font
- Email links to contact page (not mailto:)
- Social icons: 32x32px, hover state increases opacity

CSS Classes

- .footer - Footer container
- .footer-logo - Logo container
- .footer-links - Navigation links container
- .footer-link - Individual link
- .footer-link.secondary - Secondary link styling
- .footer-social - Social media icons container
- .footer-social-link - Individual social icon
- .footer-copy - Copyright and contact info
